SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

C. Impaired Waterbodies

Do stormwater (SW) discharges from the site drain to a watershed that drains to a DHEC WQ monitoring site (WQMS)...

1. Listed on the most current 303(d) List for Impaired Waters? ☒ Yes ☐ No
 - a. If yes for (1), is there an unimpaired WQMS between your site and the impaired WQMS? ☒ Yes ☐ No
 - b. If no for (a), list the waterbody. Okatie River List the impairment(s). SFH
 - c. Will construction SW discharges from your site contain the pollutant(s) of impairment? ☐ Yes ☒ No
 - d. If yes for (c), will use of the selected BMPs ensure that the site's discharges will not contribute to or cause further water quality standard violations? ☐ Yes ☒ No
2. For which a TMDL(s) has been developed? ☐ Yes ☒ No List the impairment(s). _____
 - a. If yes for (2), list the waterbody. _____
 - b. Has the standard been attained for the impairment(s)? ☐ Yes ☒ No
 - c. If no for (b), will construction SW discharges from your site contain the pollutant of impairment? ☐ Yes ☒ No
 - d. If yes for (c), are your discharges consistent with the assumptions and requirements of the TMDL(s)? ☐ Yes ☒ No
 - e. If no for (d), will use of the selected BMPs ensure that the site's discharges will not contribute to or cause further water quality standard violations? ☐ Yes ☒ No

- D. Are S.C. Navigable Waters (SCNW) on the site?** ☐ Yes ☒ No If yes, list the SCNW: _____
- Will any construction activities cross over or occur in, under, or through the SCNW? ☐ Yes ☒ No
- If yes, then describe activity (e.g., road crossing, sub aqueous utility line). _____
- Has an SCNW permit been issued for this site? ☐ Yes, for all activities ☐ Yes, for some activities ☒ No
- If yes, list permit number and corresponding activities. _____

PERMIT APPLICATION PUBLIC NOTICE**

August 31, 2007

Permit Number: OCRM-07-231-M
Permit ID: 60013

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: W. E. Stokes
C/o Mr. Matthew Kizer
1405 Palmetto Blvd.
Edisto Island, SC 29438

LOCATION: On and adjacent to Russell Creek at 2944 Hwy 174, Edisto Island, Charleston County, South Carolina. TMS#: 029-00-00-042.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock, a boat ramp and an erosion control device. Specifically, the dock will have a 4' by 48' walkway leading to a 14' by 14' covered fixed pierhead, both with handrails. The erosion control device will consist of a 3' high by 121' long timber bulkhead with associated backfill. The proposed boat ramp will be a 10' wide by 28' long reinforced concrete structure, to be terminated at the mean low water mark. The purpose of the activities are for the applicant's private recreational use along with erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before September 30, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

PERMIT APPLICATION PUBLIC NOTICE**

August 31, 2007

Permit Number: OCRM-07-236-E
Permit ID: 60069

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Edward Buckley
c/o Kennerty Surveying Inc
PO Box 26
Ravenel, SC 29470

LOCATION: On and adjacent to James Island Creek at 39 Anderson Dr., Charleston, Charleston County, South Carolina. TMS#: 425-05-00-014.

WORK: The work as proposed and shown on the attached plans consists of building a replacement bulkhead and adding a boatlift to a dock. An existing 125' bulkhead will be replaced with a new timber bulkhead in the same location, and a 10' x 16', four-pile boatlift will be added on the upstream side of an existing dock. The purpose of the proposed activity is for erosion control and private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before September 15, 2007. For further information please contact the project manager for this activity, Bill Eiser, at 843-953-0237.

This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Richard Sawin
C/O Docks Unlimited Inc
PO Box 349
Mount Pleasant, SC 29465-0349

LOCATION: On and adjacent to Wakendaw Creek at 760 Lakenheath Dr, Point Pleasant, Mount Pleasant, Charleston County, South Carolina. TMS#: 559-03-00-042.

WORK: The work as proposed consists of making additions to an existing dock. The applicant seeks to add a 8' x 16' floating boatlift ebbside of the existing pierhead. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before September 15, 2007. For further information please contact the project manager for this activity, Tess Rodgers at 843-953-0233.

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Robert W Harris
C/o O'Quinn Marine Construction Inc
95 Sheppard Road
Lady's Island SC 29907

LOCATION: On and adjacent to Battery Creek at 30 (Lot 13) Wright Point Drive, Beaufort, Beaufort County, South Carolina. TMS#: R112-032-000-0227-0000.

WORK: The work as proposed and shown on the attached plans consists of constructing a private dock and timber bulkhead. Specifically, the structure will have a 4'x436' walkway with handrails leading to 15'x15' covered fixed pierhead. Channelward of the pierhead will be a 4'x30' ramp leading to a 10'x30' floating dock. Off the left of the pierhead will be a 12'x13' four pile boatlift. The purpose for the activity is for the applicant's private recreational use. Also, proposed is a 4' high by 77' long timber bulkhead with wing walls. The purpose for the bulkhead is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

TO ALL INTERESTED PARTIES

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the S. C. Department of Health and Environmental Control by

FORT SUMTER TOURS, INC.
360 CONCORD STREET, STE. 201
CHARLESTON, SOUTH CAROLINA 29401

for modifications to an existing dock permit (87-3T-062) adjacent to

CHARLESTON HARBOR

at a location described as on the west side of Patriots Point Boulevard adjacent to the existing pier to the U.S.S. Yorktown at Patriots Point, in the Town of Mt. Pleasant, Charleston County, South Carolina (Latitude 32.79043, Longitude -79.90634)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 17 SEPTEMBER 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of modifying the existing dock with the addition of a new approach walkway with roof, new steps to the crew work area, the installation of two new hurricane mooring dolphins, the installation of a new wheelchair gangway landing, the construction of a new 22.5' x 80' floating dock and the installation of 22 new protective pilings. The purpose of the proposed work is to improve an existing commercial dock.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7 (c) of the Endangered Species Act of 1973 (as amended).

The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact (0.04) acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact David Chamberlain at 843-329-8044 or toll free at 1-866-329-8187.
